

**Liverpool Heart and Chest Hospital NHS Foundation Trust**

**Donor outcomes**

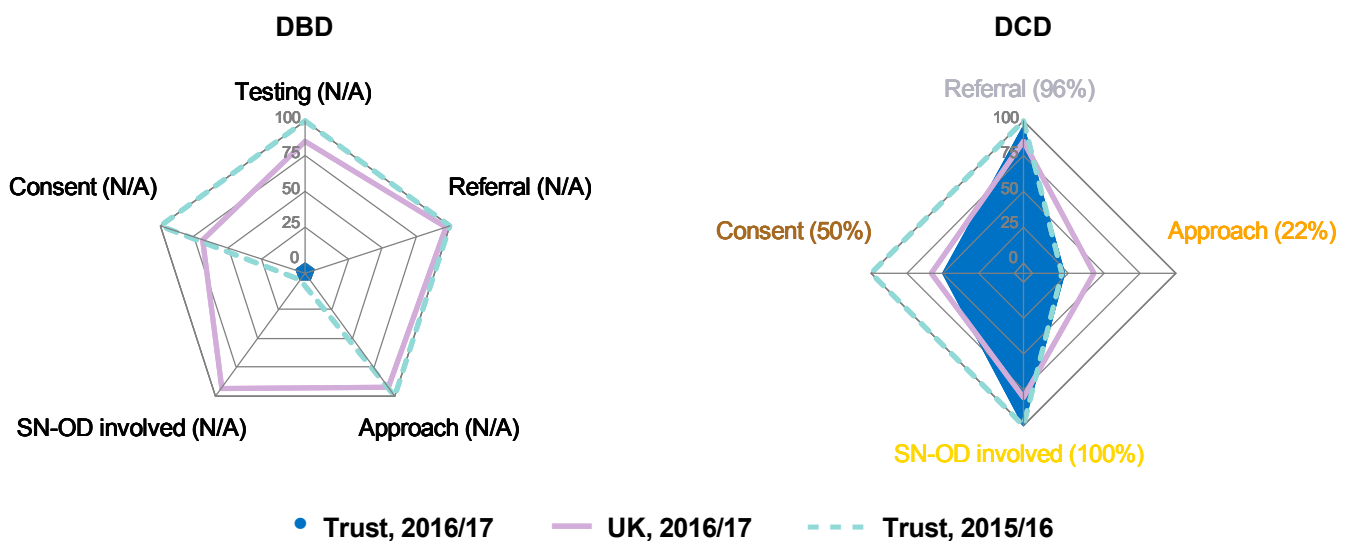

Between 1 April 2016 and 31 March 2017, your Trust had one deceased solid organ donor, resulting in 2 patients receiving a transplant. Further details are provided in the table and chart below. If you would like further information, please contact your local Specialist Nurse - Organ Donation (SN-OD).

Donors, patients transplanted and organs per donor, 1 April 2016 - 31 March 2017 (1 April 2015 - 31 March 2016 for comparison)								
	Number of donors		Number of patients transplanted		Average number of organs donated per donor Trust		UK	
Deceased donors	1	(0)	2	(0)	2.0	(-)	3.4	(3.4)

**Number of donors and patients transplanted each year**

**Radar charts of key rates, 1 April 2016 to 31 March 2017**

The blue shaded area represents your Trust's rates for 2016/17. The latest UK rates and your Trust's rates for the equivalent period in the previous year are superimposed for comparison. The fuller the blue shaded area the better. The colour of the rate label on each of the radar charts indicates the Trust performance as shown in the appropriate funnel plot (included in the detailed report) using the gold, silver, bronze, amber, and red (GoSBAR) scheme. Additionally, the funnel plots in the detailed report can be used to identify the maximum rates currently being achieved by Trusts with similar donor potential.

## Key numbers and rates

There are nine measures on the Potential Donor Audit (PDA) which are most likely to affect the conversion of potential donors into actual donors. A comparison against funnel plot boundaries has been applied by highlighting the key rates for your Trust as gold, silver, bronze, amber, or red. Funnel plots can be found in the detailed report. Between 1 April 2016 and 31 March 2017, 5 of the 9 measures had no cases, but your Trust met a statistically acceptable level in 3 of the remaining 4 measures. There were no potential DBD donors with suspected neurological death. Of the 18 eligible DCD donors, 1 proceeded to donation and 17 did not proceed. Further details are provided below. Caution should be applied when interpreting percentages based on small numbers.
