Radar charts of key rates, 1 April 2016 to 31 March 2017

The blue shaded area represents your Board's rates for 2016/17. The latest UK rates and your Board's rates for the equivalent period in the previous year are superimposed for comparison. The fuller the blue shaded area the better. The colour of the rate label on each of the radar charts indicates the Board performance as shown in the appropriate funnel plot (included in the detailed report) using the gold, silver, bronze, amber, and red (GoSBAR) scheme. Additionally, the funnel plots in the detailed report can be used to identify the maximum rates currently being achieved by Boards with similar donor potential.

Key numbers and rates

There are nine measures on the Potential Donor Audit (PDA) which are most likely to affect the conversion of potential donors into actual donors. A comparison against funnel plot boundaries has been applied by highlighting the key rates for your Board as gold, silver, bronze, amber, or red. Funnel plots can be found in the detailed report. Between 1 April 2016 and 31 March 2017, your Board met a statistically acceptable level in 8 of these measures. All of the 5 potential DBD donors with suspected neurological death proceeded to donation. Of the 17 eligible DCD donors, 2 proceeded to donation and 15 did not proceed. Further details are provided below. Caution should be applied when interpreting percentages based on small numbers.

¹ DBD - A patient with suspected neurological death DCD - A patient in whom imminent death is anticipated, ie a patient receiving assisted ventilation, a clinical decision to withdraw treatment has been made and death is anticipated within 4 hours ² DBD - Death confirmed by neurological tests and no absolute contraindications to solid organ donation DCD - Imminent death anticipated and treatment withdrawn with no absolute contraindications to solid organ donation										

Note that from 1 April 2016 to 31 March 2017 there was one eligible DCD donor for whom authorisation for donation was ascertained who is not included in this section because they were either over 80 years of age or did not die in a unit participating in the PDA.
