

South Tees Hospitals NHS Foundation Trust

Taking Organ Transplantation to 2020

In 2017/18, from 23 consented donors the Trust facilitated 20 actual solid organ donors resulting in 54 patients receiving a life-saving or life-changing transplant.

In addition to the 20 proceeding donors there were 3 additional consented donors that did not proceed.

Best quality of care in organ donation

Referral of potential deceased organ donors

Goal: Every patient who meets the referral criteria should be identified and referred to NHS Blood and Transplant's Organ Donation Service

Aim: There should be no purple on the chart

Aim: The Trust (marked with a cross) should fall within Bronze, Silver, or Gold

The Trust referred 83 potential organ donors during 2017/18. There were no occasions where potential organ donors were not referred.

When compared with UK performance, the Trust was exceptional (gold) for referral of potential organ donors to NHS Blood and Transplant.

## Presence of Specialist Nurse for Organ Donation

**Goal: A Specialist Nurse for Organ Donation (SNOD) should be present during every organ donation discussion with families**

**Aim: There should be no purple on the chart**

**Aim: The Trust (marked with a cross) should fall within Bronze, Silver, or Gold**

A SNOD was present for 38 organ donation discussions with families during 2017/18. There were 2 occasions where a SNOD was not present.

When compared with UK performance, the Trust was average (bronze) for SNOD presence when approaching families to discuss organ donation.

### Why it matters

- If suitable patients are not referred, the patient's decision to be an organ donor is not honoured or the family does not get the chance to support organ donation.
- The consent rate in the UK is much higher when a SNOD is present.
- The number of patients receiving a life-saving or life-changing solid organ transplant in the UK is increasing but patients are still dying while waiting.

#### Regional donors, transplants, waiting list, and NHS Organ Donor Register (ODR) data

	North East*	UK
<b>1 April 2017 - 31 March 2018</b>		
Deceased donors	73	1,574
Transplants from deceased donors	126	4,012
Deaths on the transplant list	29	426
<b>As at 31 March 2018</b>		
Active transplant list	233	6,045
Number of NHS ODR opt-in registrations (% registered)**	975,059 (37%)	24,941,804 (38%)

\*Regions have been defined as per former Strategic Health Authorities

\*\* % registered based on population of 2.62 million, based on ONS 2011 census data

## Further information

Further information on potential donors after brain death (DBD) and potential donors after circulatory death (DCD) at the Trust are shown below, including a UK comparison.

<b>Key numbers, rates and comparison with UK data, 1 April 2017 - 31 March 2018</b>						
	<b>DBD</b>		<b>DCD</b>		<b>Deceased donors</b>	
	<b>Trust</b>	<b>UK</b>	<b>Trust</b>	<b>UK</b>	<b>Trust</b>	<b>UK</b>
Patients meeting organ donation referral criteria <sup>1</sup>	15	1954	70	6281	83	7978
Referred to Organ Donation Service	15	1929	70	5615	83	7302
<i>Referral rate %</i>	<b>G</b> 100%	99%	<b>G</b> 100%	89%	<b>G</b> 100%	92%
Neurological death tested	13	1676				
<i>Testing rate %</i>	<b>B</b> 87%	86%				
Eligible donors <sup>2</sup>	13	1582	54	4456	67	6038
Family approached	12	1471	28	1858	40	3329
Family approached and SNOD present	12	1394	26	1591	38	2985
<i>% of approaches where SNOD present</i>	<b>G</b> 100%	95%	<b>B</b> 93%	86%	<b>B</b> 95%	90%
Consent ascertained	8	1066	17	1115	25	2181
<i>Consent rate %</i>	<b>B</b> 67%	72%	<b>B</b> 61%	60%	<b>B</b> 63%	66%
Actual donors (PDA data)	8	955	12	613	20	1568
<i>% of consented donors that became actual donors</i>	100%	90%	71%	55%	80%	72%

<sup>1</sup> DBD - A patient with suspected neurological death  
DCD - A patient in whom imminent death is anticipated, ie a patient receiving assisted ventilation, a clinical decision to withdraw treatment has been made and death is anticipated within 4 hours

<sup>2</sup> DBD - Death confirmed by neurological tests and no absolute contraindications to solid organ donation  
DCD - Imminent death anticipated and treatment withdrawn with no absolute contraindications to solid organ donation

Note that a patient that meets both the referral criteria for DBD and DCD organ donation is featured in both the DBD and DCD data but will only be counted once in the deceased donors total

**Gold** **Silver** **Bronze** **Amber** **Red**
