

Western Health and Social Care Trust

Taking Organ Transplantation to 2020

In 2017/18, from 11 consented donors the Trust facilitated 7 actual solid organ donors resulting in 20 patients receiving a life-saving or life-changing transplant.

In addition to the 7 proceeding donors there were 4 additional consented donors that did not proceed.

Best quality of care in organ donation

Referral of potential deceased organ donors

Goal: Every patient who meets the referral criteria should be identified and referred to NHS Blood and Transplant's Organ Donation Service

Aim: There should be no purple on the chart

Aim: The Trust (marked with a cross) should fall within Bronze, Silver, or Gold

X Trust • Other level 2 Trusts --- UK rate

Gold Silver Bronze Amber Red

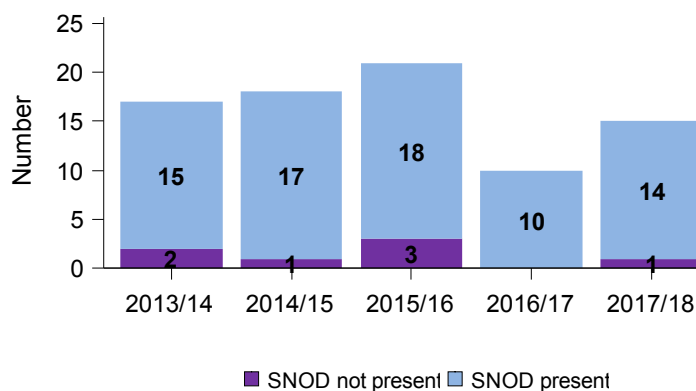

The Trust referred 27 potential organ donors during 2017/18. There were 8 occasions where potential organ donors were not referred.

When compared with UK performance, the Trust was average (bronze) for referral of potential organ donors to NHS Blood and Transplant.

Presence of Specialist Nurse for Organ Donation

Goal: A Specialist Nurse for Organ Donation (SNOD) should be present during every organ donation discussion with families

Aim: There should be no purple on the chart

Aim: The Trust (marked with a cross) should fall within Bronze, Silver, or Gold

A SNOD was present for 14 organ donation discussions with families during 2017/18. There was 1 occasion where a SNOD was not present.

When compared with UK performance, the Trust was average (bronze) for SNOD presence when approaching families to discuss organ donation.

Why it matters

- If suitable patients are not referred, the patient's decision to be an organ donor is not honoured or the family does not get the chance to support organ donation.
- The consent rate in the UK is much higher when a SNOD is present.
- The number of patients receiving a life-saving or life-changing solid organ transplant in the UK is increasing but patients are still dying while waiting.

Regional donors, transplants, waiting list, and NHS Organ Donor Register (ODR) data

	Northern Ireland*	UK
1 April 2017 - 31 March 2018		
Deceased donors	40	1,574
Transplants from deceased donors	115	4,012
Deaths on the transplant list	15	426
As at 31 March 2018		
Active transplant list	137	6,045
Number of NHS ODR opt-in registrations (% registered)**	803,760 (43%)	24,941,804 (38%)

*Regions have been defined as per former Strategic Health Authorities

** % registered based on population of 1.85 million, based on ONS 2011 census data

Further information

Further information on potential donors after brain death (DBD) and potential donors after circulatory death (DCD) at the Trust are shown below, including a UK comparison.

Key numbers, rates and comparison with UK data, 1 April 2017 - 31 March 2018							
	DBD		DCD		Deceased donors		
	Trust	UK	Trust	UK	Trust	UK	
Patients meeting organ donation referral criteria ¹	15	1954	24	6281	35	7978	
Referred to Organ Donation Service	14	1929	16	5615	27	7302	
<i>Referral rate %</i>	B 93%	99%	A 67%	89%	B 77%	92%	
Neurological death tested	10	1676					
<i>Testing rate %</i>	B 67%	86%					
Eligible donors ²	9	1582	15	4456	24	6038	
Family approached	9	1471	6	1858	15	3329	
Family approached and SNOD present	8	1394	6	1591	14	2985	
<i>% of approaches where SNOD present</i>	B 89%	95%	G 100%	86%	B 93%	90%	
Consent ascertained	7	1066	4	1115	11	2181	
<i>Consent rate %</i>	B 78%	72%	B 67%	60%	B 73%	66%	
Actual donors (PDA data)	6	955	1	613	7	1568	
<i>% of consented donors that became actual donors</i>	86%	90%	25%	55%	64%	72%	
¹ DBD - A patient with suspected neurological death DCD - A patient in whom imminent death is anticipated, ie a patient receiving assisted ventilation, a clinical decision to withdraw treatment has been made and death is anticipated within 4 hours							
² DBD - Death confirmed by neurological tests and no absolute contraindications to solid organ donation DCD - Imminent death anticipated and treatment withdrawn with no absolute contraindications to solid organ donation							
Note that a patient that meets both the referral criteria for DBD and DCD organ donation is featured in both the DBD and DCD data but will only be counted once in the deceased donors total							

Gold Silver Bronze Amber Red
