## Educate Develop Empower

The vision of NHS Blood and Transplant ODT Professional Development Team is to be recognised as world leaders. Our focus is on increasing quality in deceased donation, retrieval and transplantation, ethical decision making in end of life care and advanced communication.

Developments coming to this site

- Course opportunity learning, best professional
- Course structure links for
- Innovation to face

### The National Deceased Donation Course for Intensive Care Medicine (ICM) Trainees

"One of the best courses I have attended, high quality is mainly driven by the enthusiasm and great knowledge of the faculty members and leads in the subject of organ donation" - Delegate feedback, submitted anonymously

#### Why do deceased donation simulation?

Deceased donation occurs at times of significant family distress.

It is often not appropriate for junior staff to lead a donation discussion with families. Training in the clinical arena.

Simulation allows staff training and
