

Essential Transfusion Medicine

WHO IS THIS FOR

- Doctors commencing studies in Transfusion Medicine
- All newly registered Speciality Registrars (StRs) within the first 6 months of training

Please note: Transfusion Practitioners and Transfusion Liaison Nurses should contact HRDirect@nhsbt.nhs.uk for advice.

Structure

Five days (1 week)

THE AIM OF THE PROGRAMME

Introduce the major aspects of Transfusion Medicine to enable safe and effective practice to StRs and ST2/3s newly in post.

WHAT YOU WILL LEARN

- Describe the underpinning principles of basic transfusion medicine/science
- Describe the procedures and theory behind pre-transfusion testing
- Identify the range of blood components available from NHSBT

WHAT DOES THIS PROGRAMME COVER?

This comprehensive course includes tutorials, seminars, case studies, data interpretation and exercises relating to transfusion practice. Topics include

- ABO, Rh and other blood group systems
- NHSBT and provision of components
- Nomenclature of blood group systems
- Blood components and products
- Pre-transfusion testing
- Routine testing of blood components
- Appropriate use of blood components

BEFORE ATTENDING YOU SHOULD

- Have read the current BSH Guidelines in Transfusion Medicine (<https://b-s-h.org.uk/guidelines>)

PRE-COURSEWORK / LEARNING MATERIALS

There is no pre-coursework to complete for this programme. You will be sent all relevant materials 4-6 weeks before your programme date.
