

Royal Brompton & Harefield NHS Foundation Trust

Taking Organ Transplantation to 2020

In 2018/19, from 18 consented donors the Trust facilitated 14 actual solid organ donors resulting in 31 patients receiving a life-saving or life-changing transplant. Data obtained from the UK Transplant Registry.

In addition to the 14 proceeding donors there were 4 consented donors that did not proceed.

Best quality of care in organ donation

Referral of potential deceased organ donors

Goal: Every patient who meets the referral criteria should be identified and referred to NHS Blood and Transplant's Organ Donation Service

Aim: There should be no purple on the chart

Aim: The Trust (marked with a cross) should fall within Bronze, Silver, or Gold

Gold Silver Bronze Amber Red

The Trust referred 59 potential organ donors during 2018/19. There was 1 occasion where a potential organ donor was not referred.

When compared with UK performance, the Trust was good (silver) for referral of potential organ donors to NHS Blood and Transplant.

Presence of Specialist Nurse for Organ Donation

Goal: A Specialist Nurse for Organ Donation (SNOD) should be present during every organ donation discussion with families

Aim: There should be no purple on the chart

Aim: The Trust (marked with a cross) should fall within Bronze, Silver, or Gold

A SNOD was present for 25 organ donation discussions with families during 2018/19. There were 2 occasions where a SNOD was not present.

When compared with UK performance, the Trust was average (bronze) for SNOD presence when approaching families to discuss organ donation.

Why it matters

- If suitable patients are not referred, the patient's decision to be an organ donor is not honoured or the family does not get the chance to support organ donation.
- The consent rate in the UK is much higher when a SNOD is present.
- The number of patients receiving a life-saving or life-changing solid organ transplant in the UK is increasing but patients are still dying while waiting.

Regional donors, transplants, waiting list, and NHS Organ Donor Register (ODR) data

	London*	UK
1 April 2018 - 31 March 2019		
Deceased donors	266	1,600
Transplants from deceased donors	654	3,943
Deaths on the transplant list	58	403
As at 31 March 2019		
Active transplant list	1,287	6,083
Number of NHS ODR opt-in registrations (% registered)**	2,735,108 (32%)	26,496,220 (41%)

*Regions have been defined as per former Strategic Health Authorities

** % registered based on population of 8.67 million, based on ONS 2011 census data

Further information

Further information on potential donors after brain death (DBD) and potential donors after circulatory death (DCD) at the Trust are shown below, including a UK comparison. Data obtained from the Potential Donor Audit (PDA).

Key numbers, rates and comparison with UK data, 1 April 2018 - 31 March 2019							
	DBD		DCD		Deceased donors		
	Trust	UK	Trust	UK	Trust	UK	
Patients meeting organ donation referral criteria ¹	8	2004	54	5974	60	7728	
Referred to Organ Donation Service	8	1982	53	5539	59	7287	
<i>Referral rate %</i>	G 100%	99%	S 98%	93%	S 98%	94%	
Neurological death tested	7	1715					
<i>Testing rate %</i>	B 88%	86%					
Eligible donors ²	6	1635	38	4180	44	5815	
Family approached	6	1493	21	1752	27	3245	
Family approached and SNOD present	6	1423	19	1527	25	2950	
<i>% of approaches where SNOD present</i>	G 100%	95%	B 90%	87%	B 93%	91%	
Consent ascertained	5	1082	13	1099	18	2181	
<i>Consent rate %</i>	B 83%	72%	B 62%	63%	B 67%	67%	
Actual donors (PDA data)	5	970	9	612	14	1582	
<i>% of consented donors that became actual donors</i>	100%	90%	69%	56%	78%	73%	

¹ DBD - A patient with suspected neurological death
DCD - A patient in whom imminent death is anticipated, ie a patient receiving assisted ventilation, a clinical decision to withdraw treatment has been made and death is anticipated within 4 hours

² DBD - Death confirmed by neurological tests and no absolute contraindications to solid organ donation
DCD - Imminent death anticipated and treatment withdrawn with no absolute contraindications to solid organ donation

Note that a patient that meets both the referral criteria for DBD and DCD organ donation is featured in both the DBD and DCD data but will only be counted once in the deceased donors total

Gold **Silver** **Bronze** **Amber** **Red**
