

Support for projects focussing on the Hindu and Jain communities

The Jain and Hindu Organ Donation (JHOD) Steering Group is a national group of volunteers who are leading on getting the information about the change in law to Hindu and Jain communities in England. It holds regular meetings in Parliament chaired by Lord Jitesh Gadhia.

Members of the Steering Group have extensive experience of working with Hindu and Jain communities and are available to offer support. Many of them have successfully bid for funding from NHSBT in the past and advice on developing bids from these communities is available.

Please contact Kirit Modi, Chair of the JHOD Steering Group, kiritmodi1@hotmail.com, if you would like to receive this support.
