

Child and Infant Deceased Donation

A multidisciplinary leadership course

NHS

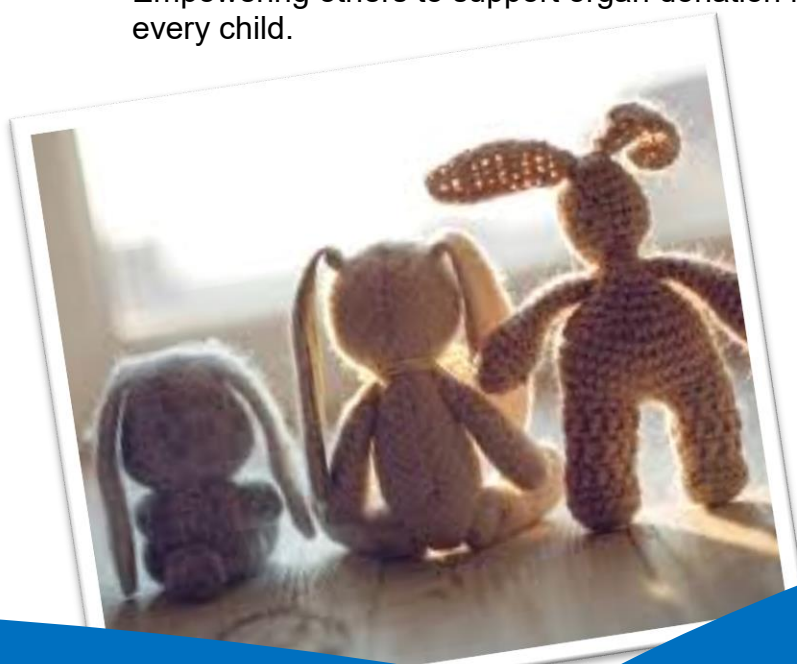

Blood and Transplant

Suitable for CLODs, Clinicians, SNODs, & practitioners leading locally on organ donation practice.

Focus on:

- Leading local delivery of the National Paediatric and Neonatal Deceased Donation Strategy
- Deepening the understanding of challenges faced in supporting deceased donation in the paediatric and neonatal environments
- Safety in neurological diagnosis of death in infants
- Building confidence in transforming local organ donation culture
- Empowering others to support organ donation in end of life care planning for every child.

Free 1 day national course
Experienced & expert faculty
