NOTE: All data as recorded on 8 April 2020 and subject to change as UK Transplant Registry updated.

Current waiting list figures do not accurately reflect the need for an organ transplant due to the CoVID-19 pandemic. Different practices have been established across the UK and across organ groups with regards to waiting list management. Some transplant centres have closed whilst keeping all patients active on their waiting lists with other centres suspending all patients that they would not consider for a transplant. Please see [here](#) to find out the latest information on transplant centre closures and restrictions.
