

Convalescent Plasma Trials Update

Total number of patients randomised:

252

50% of all patients randomised will receive convalescent plasma, and each patient will receive 2 units.

Which hospital randomised the highest number of patients last week into REMAP-CAP?

Glan Clwyd Hospital (Wales) – 2 patients randomised

Which Trust randomised the highest number of patients last week into RECOVERY?

Bolton NHS Trust – 4 patients randomised

Last Friday, the BBC News at 6pm included a story on convalescent plasma. They showed Ann Kitchen, pictured above, who was the first patient in the UK to receive convalescent plasma. This was through the REMAP-CAP trial at St Thomas' Hospital.

She describes the treatment as 'liquid gold', and the full story can be found [here](#).

- Start Date: **26/05/2020**
- Number of hospitals open: **89**
- Number of patients randomised: **184**
- Further information about the trial:
www.recoverytrial.net

SUMMARY OF TRIAL INCLUSION CRITERIA

- Hospitalised (any age)
- SARS-CoV-2 infection (clinically suspected or laboratory confirmed)
