

# Convalescent Plasma Trials Update

Total number of patients randomised:

## 445

50% of all patients randomised will receive convalescent plasma, and each patient will receive 2 units.

Which Trust has randomised the highest number of patients into the REMAP-CAP trial?

## Leicester Hospitals – 24 patients

Which Trust has randomised the highest number of patients into the RECOVERY trial?

## North West Anglia – 30 patients

A controversial decision has been taken in the United States, to permit the widespread use of convalescent plasma (outside of clinical trials). You can find out more [here](#).

“ Although there have been a large number of patients treated with convalescent plasma, they haven’t all been within randomised controlled trials ”

**Professor Anthony Gordon**, Consultant in Intensive Care Medicine and UK Chief Investigator of the REMAP-CAP trial.

- Start Date: **26/05/2020**
- Number of hospitals open: **146**
- Number of patients randomised: **347**
- Further information about the trial:  
[www.recoverytrial.net](http://www.recoverytrial.net)

## SUMMARY OF TRIAL INCLUSION CRITERIA

- Hospitalised (any age)
- SARS-CoV-2 infection (clinically suspected or laboratory confirmed)
- No medical history that might put the patient at significant risk if he/she were to participate in the trial

- Start Date: **30/04/2020**
- Number of hospitals open: **109**
- Number of patients randomised: **98**
- Further information about the trial:  
[www.remapcap.org](http://www.remapcap.org)

## SUMMARY OF TRIAL INCLUSION CRITERIA

- Adults admitted to an Intensive Care Unit
- SARS-CoV-2 infection (laboratory confirmed)
- No medical history that might put the patient at significant risk if he/she were to participate in the trial
