

Guy's and St Thomas' NHS Foundation Trust

Taking Organ Transplantation to 2020, 1 April 2019 - 31 March 2020

In 2019/20, from 21 consented donors the Trust facilitated 13 actual solid organ donors resulting in 20 patients receiving a life-saving or life-changing transplant. Data obtained from the UK Transplant Registry.

In addition to the 13 proceeding donors there were 8 consented donors that did not proceed.

Best quality of care in organ donation, 1 April 2019 - 29 February 2020*

Referral of potential deceased organ donors

Goal: Every patient who meets the referral criteria should be identified and referred to NHS Blood and Transplant's Organ Donation Service

Aim: There should be no purple on the chart

Aim: The Trust (marked with a cross) should fall within Bronze, Silver, or Gold

The Trust referred 70 potential organ donors during 2019/20. There were 13 occasions where potential organ donors were not referred.

When compared with UK performance, the Trust was below average (amber) for referral of potential organ donors to NHS Blood and Transplant.

Presence of Specialist Nurse for Organ Donation

Goal: A Specialist Nurse for Organ Donation (SNOD) should be present during every organ donation discussion with families

Aim: There should be no purple on the chart

Aim: The Trust (marked with a cross) should fall within Bronze, Silver, or Gold

A SNOD was present for 19 organ donation discussions with families during 2019/20. There were 10 occasions where a SNOD was not present.

When compared with UK performance, the Trust was below average (amber) for SNOD presence when approaching families to discuss organ donation.

Why it matters

- If suitable patients are not referred, the patient's decision to be an organ donor is not honoured or the family does not get the chance to support organ donation.
- The consent rate in the UK is much higher when a SNOD is present.
- The number of patients receiving a life-saving or life-changing solid organ transplant in the UK is increasing but patients are still dying while waiting.

Regional donors, transplants, waiting list, and NHS Organ Donor Register (ODR) data

	London*	UK
1 April 2019 - 31 March 2020		
Deceased donors	277	1,582
Transplants from deceased donors	697	3,749
Deaths on the transplant list	57	394
As at 29 February 2020		
Active transplant list	1,246	6,138
Number of NHS ODR opt-in registrations (% registered)**	2,664,752 (31%)	25,980,113 (40%)

*Regions have been defined as per former Strategic Health Authorities

** % registered based on population of 8.67 million, based on ONS 2011 census data

Further information

Further information on potential donors after brain death (DBD) and potential donors after circulatory death (DCD) at the Trust are shown below, including a UK comparison. Data obtained from the Potential Donor Audit (PDA).

	DBD		DCD		Deceased donors	
	Trust	UK	Trust	UK	Trust	UK
Patients meeting organ donation referral criteria ¹	20	1845	65	5676	83	7324
Referred to Organ Donation Service	19	1828	53	5235	70	6876
<i>Referral rate %</i>	B 95%	99%	A 82%	92%	A 84%	94%
Neurological death tested	18	1615				
<i>Testing rate %</i>	B 90%	88%				
Eligible donors ²	17	1542	44	3985	61	5527
Family approached	13	1368	16	1712	29	3080
Family approached and SNOD present	10	1315	9	1528	19	2843
<i>% of approaches where SNOD present</i>	B 77%	96%	A 56%	89%	A 66%	92%
Consent ascertained	8	983	11	1099	19	2082
<i>Consent rate %</i>	B 62%	72%	B 69%	64%	B 66%	68%
Actual donors (PDA data)	6	876	4	598	10	1475
<i>% of consented donors that became actual donors</i>	75%	89%	36%	54%	53%	71%

¹ DBD - A patient with suspected neurological death
DCD - A patient in whom imminent death is anticipated, ie a patient receiving assisted ventilation, a clinical decision to withdraw treatment has been made and death is anticipated within 4 hours

² DBD - Death confirmed by neurological tests and no absolute contraindications to solid organ donation
DCD - Imminent death anticipated and treatment withdrawn with no absolute contraindications to solid organ donation

Note that a patient that meets both the referral criteria for DBD and DCD organ donation is featured in both the DBD and DCD data but will only be counted once in the deceased donors total

Gold **Silver** **Bronze** **Amber** **Red**

For further information, including definitions, see the latest Potential Donor Audit report at www.odt.nhs.uk/statistics-and-reports/potential-donor-audit/

*Quality of care data relating to organ donation has been restricted to exclude the period most significantly impacted by the COVID-19 pandemic. Data presented include activity from 1 April 2019 to 29 February 2020.
