

NHS Grampian

Taking Organ Transplantation to 2020, 1 April 2019 - 31 March 2020

In 2019/20, from 19 authorised donors the Board facilitated 16 actual solid organ donors resulting in 46 patients receiving a life-saving or life-changing transplant. Data obtained from the UK Transplant Registry.

In addition to the 16 proceeding donors there were 3 authorised donors that did not proceed.

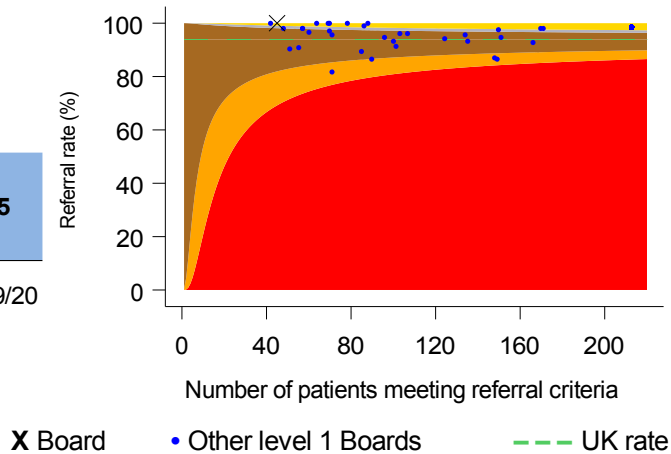

Best quality of care in organ donation, 1 April 2019 - 29 February 2020*

Referral of potential deceased organ donors

Goal: Every patient who meets the referral criteria should be identified and referred to NHS Blood and Transplant's Organ Donation Service

Aim: There should be no purple on the chart

Aim: The Board (marked with a cross) should fall within Bronze, Silver, or Gold

Gold Silver Bronze Amber Red

The Board referred 45 potential organ donors during 2019/20. There were no occasions where potential organ donors were not referred.

When compared with UK performance, the Board was exceptional (gold) for referral of potential organ donors to NHS Blood and Transplant.

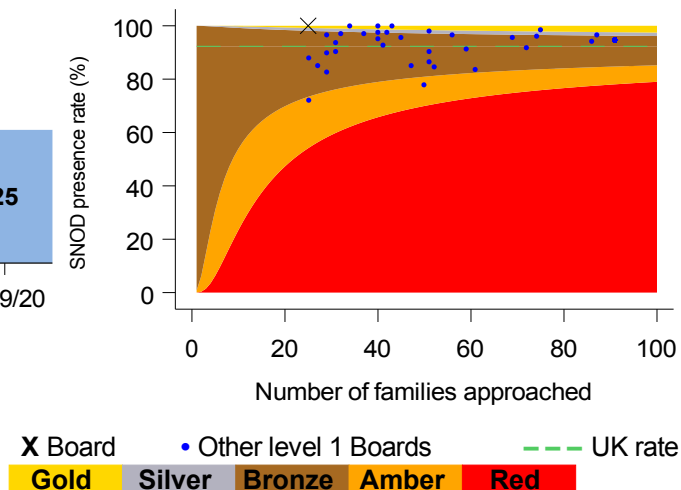

Presence of Specialist Nurse for Organ Donation

Goal: A Specialist Nurse for Organ Donation (SNOD) should be present during every organ donation discussion with families

Aim: There should be no purple on the chart

Aim: The Board (marked with a cross) should fall within Bronze, Silver, or Gold

A SNOD was present for 25 organ donation discussions with families during 2019/20. There were no occasions where a SNOD was not present.

When compared with UK performance, the Board was exceptional (gold) for SNOD presence when approaching families to discuss organ donation.

Why it matters

- If suitable patients are not referred, the patient's decision to be an organ donor is not honoured or the family does not get the chance to support organ donation.
- The authorisation rate in the UK is much higher when a SNOD is present.
- The number of patients receiving a life-saving or life-changing solid organ transplant in the UK is increasing but patients are still dying while waiting.

Regional donors, transplants, waiting list, and NHS Organ Donor Register (ODR) data

	Scotland*	UK
1 April 2019 - 31 March 2020		
Deceased donors	109	1,582
Transplants from deceased donors	306	3,749
Deaths on the transplant list	36	394
As at 29 February 2020		
Active transplant list	561	6,138
Number of NHS ODR opt-in registrations (% registered)**	2,689,960 (50%)	25,980,113 (40%)

*Regions have been defined as per former Strategic Health Authorities

** % registered based on population of 5.37 million, based on ONS 2011 census data

Further information

Further information on potential donors after brain death (DBD) and potential donors after circulatory death (DCD) at the Board are shown below, including a UK comparison. Data obtained from the Potential Donor Audit (PDA).

	DBD		DCD		Deceased donors	
	Board	UK	Board	UK	Board	UK
Patients meeting organ donation referral criteria ¹	14	1845	33	5676	45	7324
Referred to Organ Donation Service	14	1828	33	5235	45	6876
<i>Referral rate %</i>	G 100%	99%	G 100%	92%	G 100%	94%
Neurological death tested	12	1615				
<i>Testing rate %</i>	B 86%	88%				
Eligible donors ²	12	1542	25	3985	37	5527
Family approached	12	1368	13	1712	25	3080
Family approached and SNOD present	12	1315	13	1528	25	2843
<i>% of approaches where SNOD present</i>	G 100%	96%	G 100%	89%	G 100%	92%
Authorisation ascertained	10	983	6	1099	16	2082
<i>Authorisation rate %</i>	B 83%	72%	B 46%	64%	B 64%	68%
Actual donors (PDA data)	10	876	4	598	14	1475
<i>% of authorised donors that became actual donors</i>	100%	89%	67%	54%	88%	71%

¹ DBD - A patient with suspected neurological death
DCD - A patient in whom imminent death is anticipated, ie a patient receiving assisted ventilation, a clinical decision to withdraw treatment has been made and death is anticipated within 4 hours

² DBD - Death confirmed by neurological tests and no absolute contraindications to solid organ donation
DCD - Imminent death anticipated and treatment withdrawn with no absolute contraindications to solid organ donation

Note that a patient that meets both the referral criteria for DBD and DCD organ donation is featured in both the DBD and DCD data but will only be counted once in the deceased donors total

Gold **Silver** **Bronze** **Amber** **Red**
