

South West Organ Donation Services Team

Taking Organ Transplantation to 2020, 1 April 2019 - 31 March 2020

In 2019/20, from 145 consented donors the South West Organ Donation Services Team facilitated 99 actual solid organ donors resulting in 251 patients receiving a life-saving or life-changing transplant. Data obtained from the UK Transplant Registry.

In addition to the 99 proceeding donors there were 46 consented donors that did not proceed.

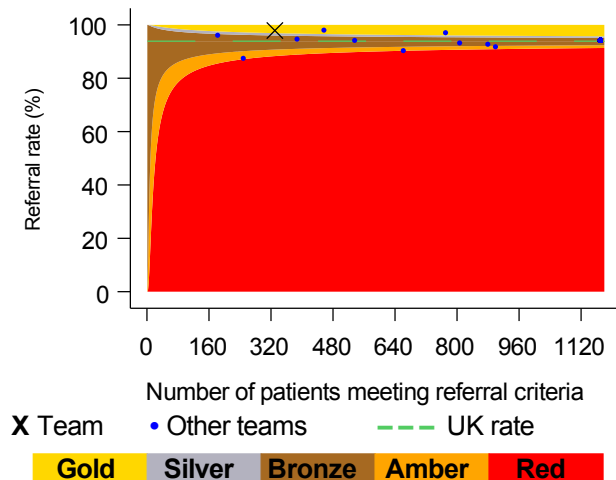

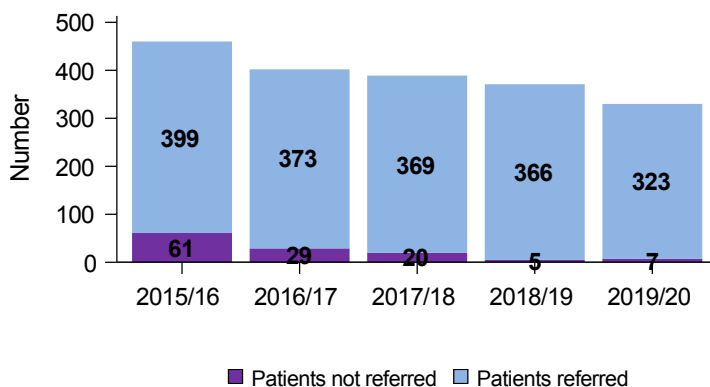

Best quality of care in organ donation, 1 April 2019 - 29 February 2020*

Referral of potential deceased organ donors

Goal: Every patient who meets the referral criteria should be identified and referred to NHS Blood and Transplant's Organ Donation Service

Aim: There should be no purple on the chart

Aim: The team (marked with a cross) should fall within Bronze, Silver, or Gold

323 potential organ donors were referred to the team during 2019/20. There were 7 occasions where potential organ donors were not referred.

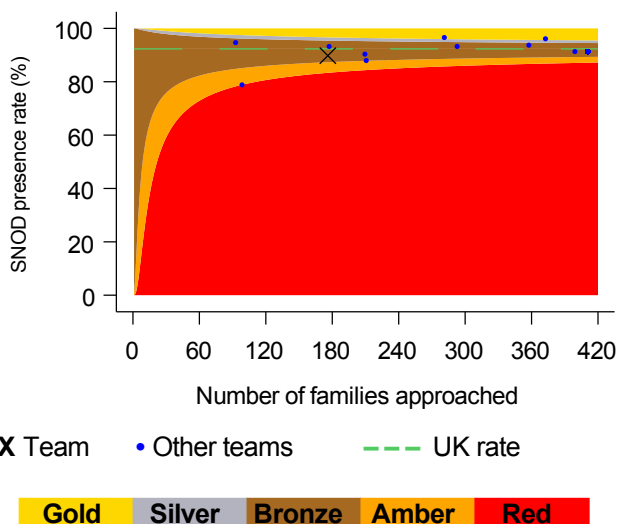

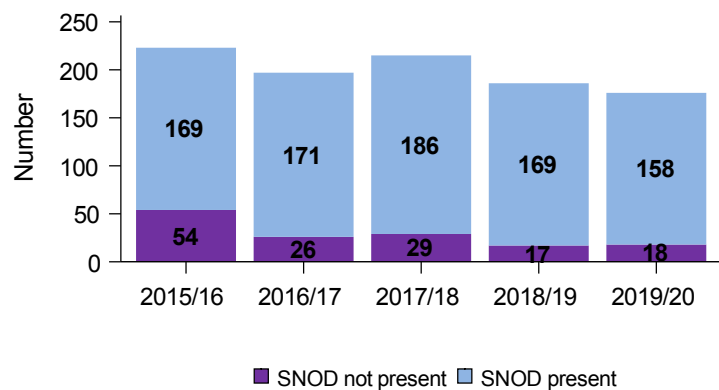

When compared with UK performance, the performance within the Trusts in the team was exceptional (gold) for referral of potential organ donors to NHS Blood and Transplant.

Presence of Specialist Nurse for Organ Donation

Goal: A Specialist Nurse for Organ Donation (SNOD) should be present during every organ donation discussion with families

Aim: There should be no purple on the chart

Aim: The team (marked with a cross) should fall within Bronze, Silver, or Gold

A SNOD was present for 158 organ donation discussions with families during 2019/20. There were 18 occasions where a SNOD was not present.

When compared with UK performance, the performance within the Trusts in the team was average (bronze) for SNOD presence when approaching families to discuss organ donation.

Further information

Further information on potential donors after brain death (DBD) and potential donors after circulatory death (DCD) within the region are shown below, including a UK comparison. Data obtained from the Potential Donor Audit (PDA).

	DBD		DCD		Deceased donors	
	South West	UK	South West	UK	South West	UK
Patients meeting organ donation referral criteria ¹	88	1845	248	5676	330	7324
Referred to Organ Donation Service	87	1828	241	5235	323	6876
<i>Referral rate %</i>	B 99%	99%	G 97%	92%	G 98%	94%
Neurological death tested	81	1615				
<i>Testing rate %</i>	B 92%	88%				
Eligible donors ²	78	1542	200	3985	278	5527
Family approached	73	1368	103	1712	176	3080
Family approached and SNOD present	70	1315	88	1528	158	2843
<i>% of approaches where SNOD present</i>	B 96%	96%	B 85%	89%	B 90%	92%
Consent ascertained	60	983	67	1099	127	2082
<i>Consent rate %</i>	S 82%	72%	B 65%	64%	B 72%	68%
Actual donors (PDA data)	54	876	38	598	92	1475
<i>% of consented donors that became actual donors</i>	90%	89%	57%	54%	72%	71%

¹ DBD - A patient with suspected neurological death
DCD - A patient in whom imminent death is anticipated, ie a patient receiving assisted ventilation, a clinical decision to withdraw treatment has been made and death is anticipated within 4 hours

² DBD - Death confirmed by neurological tests and no absolute contraindications to solid organ donation
DCD - Imminent death anticipated and treatment withdrawn with no absolute contraindications to solid organ donation

Note that a patient that meets both the referral criteria for DBD and DCD organ donation is featured in both the DBD and DCD data but will only be counted once in the deceased donors total

Gold **Silver** **Bronze** **Amber** **Red**
