Summary of UK activity

Figure 1 - Median times of DBD organ donation process, UK, 1 April 2012 - 31 March 2020

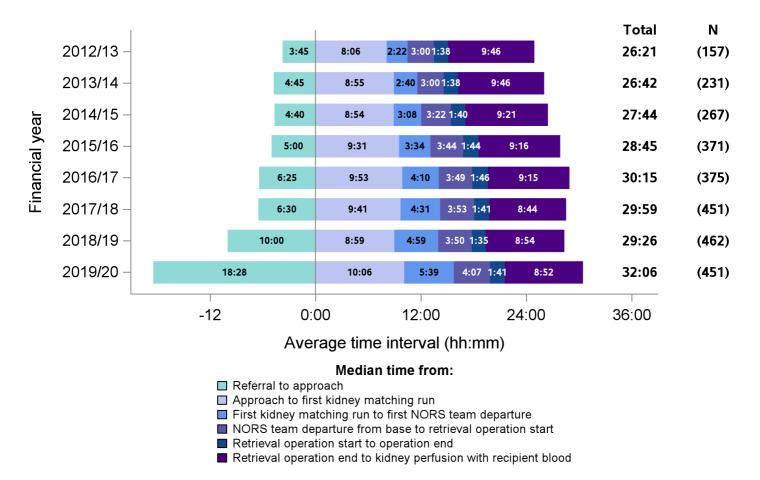

Time segment	Group with oversight responsibility
Referral to approach	National Organ Donation Committee
Approach to first kidney matching run	National Organ Donation Committee
First kidney matching run to first NORS team departure	ODT Hub
NORS team departure from base to retrieval operation start	Retrieval Advisory Group
Retrieval operation start to operation end	Retrieval Advisory Group
Retrieval operation end to kidney perfusion with recipient blood	Retrieval Advisory Group

It is important to note when interpreting all timings charts:

- To aid interpretation of the process following approach, time from referral to formal approach is presented before 0. This period is also excluded from the total median calculation
- If both a cardiothoracic and abdominal NORS team attend a donor; the earliest departure time is selected, and similarly the earliest retrieval operation start time
- The latest operation end time is selected, to signify the end of all donor surgery
- N values do not correspond to the number of donors each year, this is the number of patients for which all time values were available
- Total medians do not equal the sum of all medians calculated
- All timings charts are presented on the same scale to allow for comparison

Figure 2 - Median times of DCD organ donation process, UK, 1 April 2012 - 31 March 2020

Time segment	Group with oversight responsibility
Referral to approach	National Organ Donation Committee
Approach to first kidney matching run	National Organ Donation Committee

NORS team departure from base to retrieval operation start	Retrieval Advisory Group
Retrieval operation start to operation end	Retrieval Advisory Group
Retrieval operation end to kidney perfusion with recipient blood	Retrieval Advisory Group

Consent/authorisation not ascertained due to 'family felt the length of time for donation process was too long'
