

Challenge Questions

Challenge

In this section we invite stakeholders to submit evidence of a challenge in the system of organ transplantation, for consideration by the Organ Utilisation Group.

If you have more detailed documentation to share with us to support your evidence summarised here, please submit this via email to organutilisationprogramme@nhsbt.nhs.uk

8. Please describe the challenge you identify in the system of organ transplantation *

Enter your answer

9. What impact has this challenge had? *

Enter your answer

10. What do you perceive to be the root cause of the challenge? *

Enter your answer

11. Please indicate the donation and organ types to which your evidence in this page is applicable *

(Please note that you must select an option for every row in the table)

	Yes	No	Unsure
Living Donation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Deceased Donation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Liver	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Lung	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Heart	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Kidney	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Pancreas	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other Organs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Adult patients	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Paediatric patients	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

12. Please indicate the element(s) of the organ transplantation pathway to which this challenge is most relevant. *

Please note that organ donation is out of scope for the Organ Utilisation Group.

- Referral and assessment of patients for transplant listing
- Management of patients on the waiting list
- Pre-donation
- Organ offering
- Donor Characterisation
- Organ Imaging
- Information Sharing
- Organ retrieval
- Organ Transport & Packing
- Transplant surgery
- Post-transplant care
- Other

13. Please indicate which Organ Utilisation Group sub-groups you feel should consider this evidence

*

More information about sub-groups is available here:

<https://www.odt.nhs.uk/oug/>

- Standards
- Commissioning
- Systems Architecture & Data Handling
- Workforce
- None of the above
- Unsure

Challenges & Opportunities

14. Is your second item of evidence concerning a challenge to be addressed, or an opportunity for change identified? *

- Challenge to be addressed
- Potential change opportunity
- I have no further evidence to submit

Opportunity Questions

Opportunity

In this section we invite stakeholders to submit their evidence of an existing intervention that has had a beneficial impact for organ transplantation but has not yet been rolled out across all Trusts, or a future opportunity identified but not yet realised.

If you have more detailed documentation to share with us to support your evidence summarised here, please submit this via email to organutilisationprogramme@nhsbt.nhs.uk

15. Please describe the intervention *

Enter your answer

16. Please provide evidence of its proven impact, or any detail supporting a case for future implementation *

Enter your answer

17. Please indicate the donation and organ types to which your evidence in this page is applicable *

(Please note that you must select an option for every row in the table)

	Yes	No	Unsure
Living Donation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Deceased Donation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Liver	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Lung	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Heart	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Kidney	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Pancreas	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other Organs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Adult patients	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Paediatric patients	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

18. Please indicate the element(s) of the organ transplantation pathway to which this evidence is most relevant. *

Please note that organ donation is out of scope for the Organ Utilisation Group.

- Referral and assessment of patients for transplant listing
- Management of patients on the waiting list
- Pre-donation
- Organ offering
- Donor Characterisation
- Organ Imaging
- Information Sharing
- Organ retrieval
- Organ Transport & Packing
- Transplant surgery
- Post-transplant care
- Other

19. Please indicate which Organ Utilisation Group sub-groups you feel should consider this evidence

*
