ORGAN DONATION

INTRODUCING THE ORGAMITES

They're a team of nine life-saving organs (led by Captain Marrow) found in every one of us. They're known as the mighty organs because they represent the most needed for donation and transplantation.

As the only global children's organ donation awareness programme of its kind, the Orgamites consists of an

ever-growing range of fun, educational tools and resources — all aimed at breathing new life and lightness into organ donation.

By empowering more parents, teachers and healthcare practitioners to have more conversations with more children, they aim to create a society in which organ

donation is the accepted norm, thereby increasing the amount of organs donated and increasing the number of subsequent lives saved.

That's why we're all superheroes inside!
