SPN223 Version 11.1

Barcodes for Non-Routine Products

These barcodes must only be used to update the Reference Tables on your host laboratory computer with the generic bar codes if you are receiving any product as part of a trial or emergency. **They must not be used to enter an individual component onto the system i.e. when entering a component, the barcode scanned in must come directly from the component label.** It is recommended that a laser printer is used to print this list.
