

Organ and Tissues Nursing Study Day.

Rachel Eason

Specialist Nurse Organ Donation, The James Cook university Hospital Middlesbrough, Level 1

Blood and Transplant

The impact of Covid on Education within hospitals.

The global pandemic, the restrictions imposed & increased workload in ICU's had a huge impact of the ability to carry out face to face teaching.

As restrictions eased we planned & carried out a study day to cover various topics, with the hope of swotting up & strengthening organ & tissue donation knowledge.

Study Day Topics

- Upper Limb donation
- Donor family experience
- Living Donation
- Recipients experience
- Tissue & Eye Donation
- How to refer
- DBD/DCD donation & process
- Neurological Death testing
- Organ Donation and Transplantation –isn't it just common sense ethics
- Family care & post donation

Feedback from attendees.

- Excellent day, informative & interesting
- Excellent talks
- Emotive day
- Really enjoyed the personal stories, very emotional
- Opened my eyes to organ & tissue donation
- Thought provoking
- One of the best study days I've attended
- Changed my perception
- Great overview
- Opened my eyes to the importance of organ & tissue donation

Deep in thought, during the study day

Conclusion

The day was extremely well received

Particularly positive feedback.

Over 85 nursing & AHP staff attended

As a result a repeat the day is planned for September 2023 to capture further staff.
