

# Who presents your Organ Donation Trust Report?

Blood and Transplant

Nic Dalling

Specialist Nurse – Organ Donation. Yorkshire ODST, The Rotherham NHS Foundation Trust, Level 3 Trust.

## What is the Organ Donation Trust Report?

A report that details Organ Donation activity (Actual & Potential Deceased Organ Donation) in each NHS Trust

A letter, a summary report & a detailed report is sent to the Chief Executive and Medical Director.

## What does the report cover?

- Organ Donation & transplantation activity (for the six month & 12th month period)
- Quality of care in Organ Donation
- What we (NHSBT) would like you to do
- Deemed Consent Legislation - England
- Why it matters

## Indepth review of:

- Referral of potential deceased organ donors
- Presence of Specialist Nurse for Organ Donation
- Consents
- Solid Organ Donation numbers
- PDA data by hospital & unit
- Regional data
- Benchmarking

## What do Rotherham NHS Foundation Trust do?

The medical Director presents the report at the Organ Donation Committee Meeting.

- All members of the ODC should have access to and have read the report.

## Why does this good practice need sharing?

- Having someone from board level presenting the data ensures that someone of that level has read & digested the data
- It demonstrates the Trust is holding itself accountable to the findings
- Members of the ODC will be questioned regarding the data & about how they plan to overcome issues moving forward
- Demonstrates the Trust is actively engaging and supporting Organ Donation and Transplantation
