

# Changing of the Guard at Swansea Bay- New CLOD and SNODs

Anita Jonas (CLOD), Kat Gooding (SNOD), Damien Stevens (SNOD)

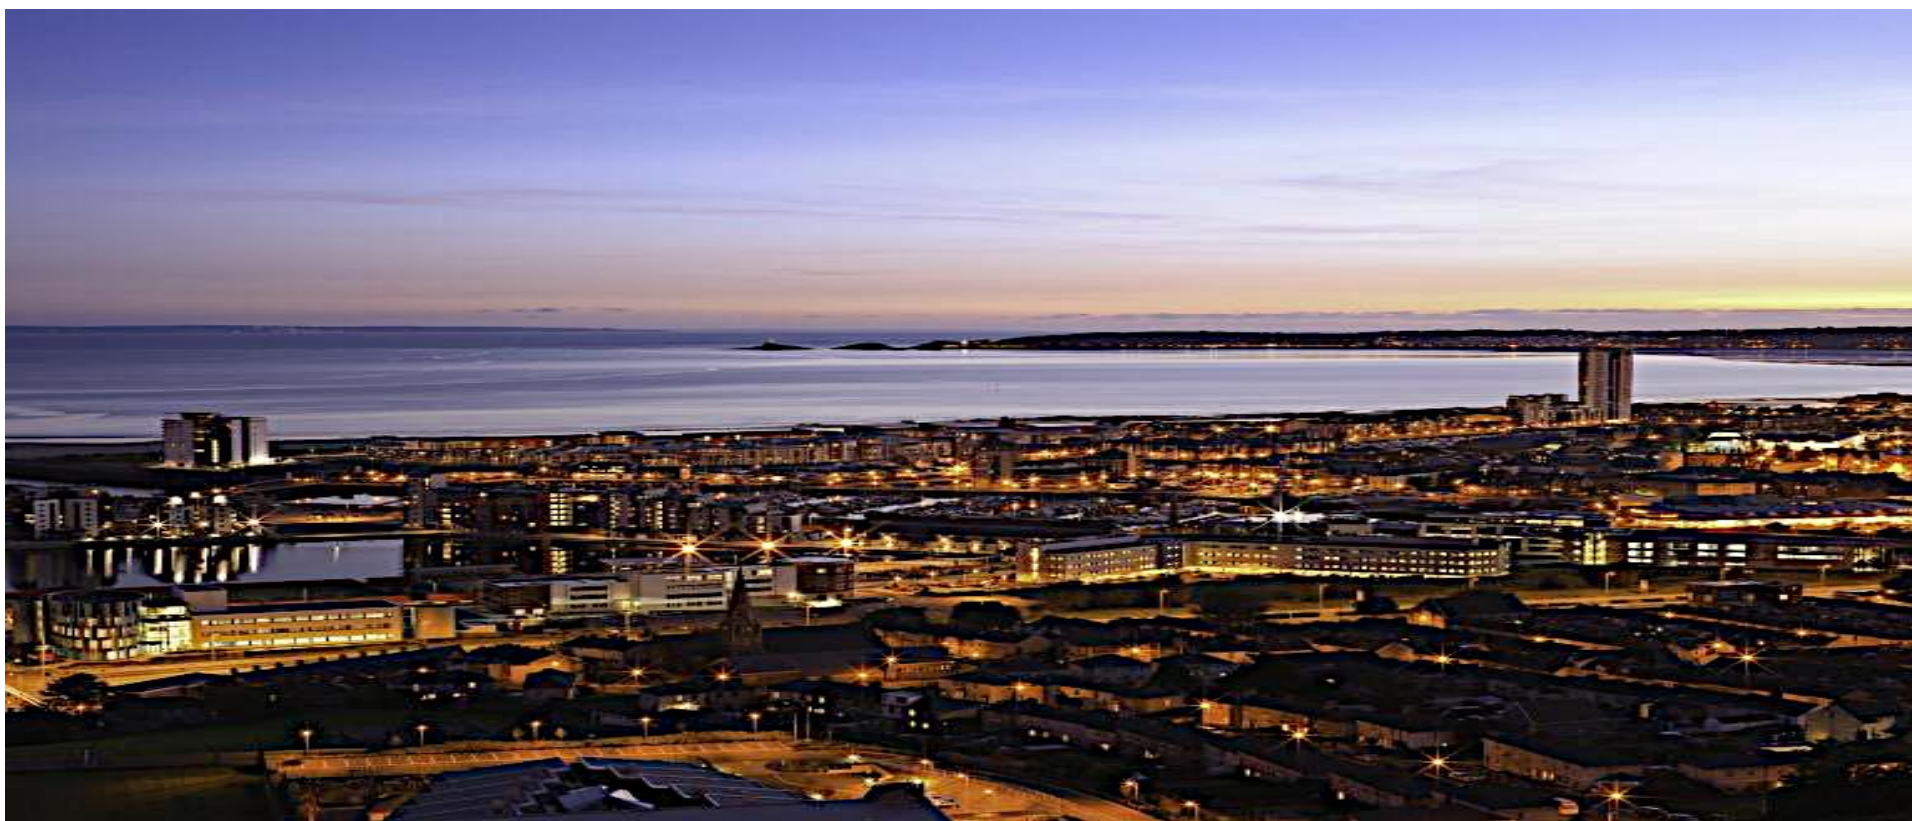

Blood and Transplant

## 2022/23- New faces for donation

Over the last two years a new embedded ODT has become established in Swansea Bay.

## Existing success

- Donation inclusive in Health Board ethos and philosophy
- Hospital visibility, for examples lift wraps, Donation Memorial
- Established systems for PDA data collection and reporting back to ITU Q&S monthly
- Teaching contacts in ITU, Theatres and local Universities

## Our story so far...

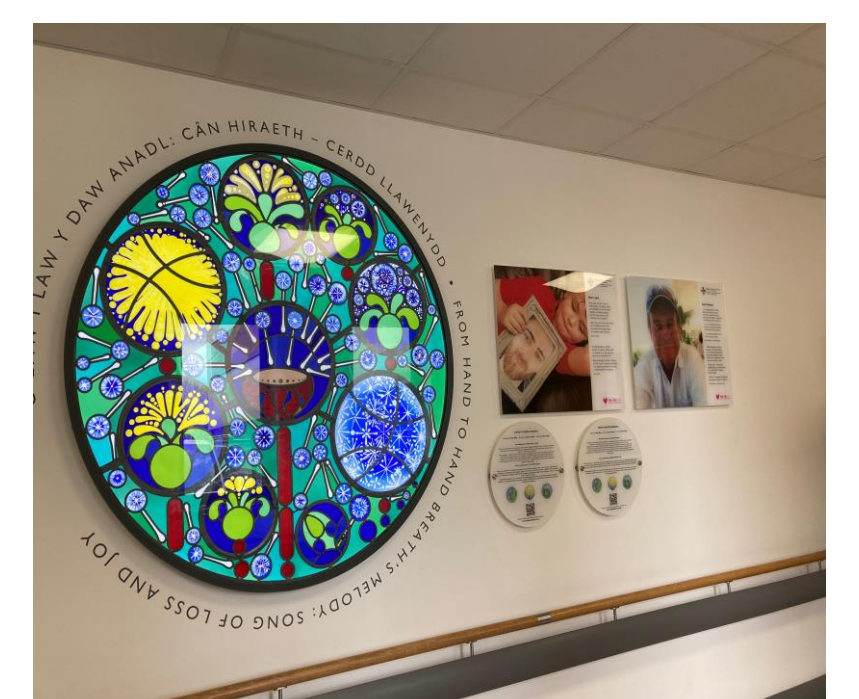

- Achieving Level 2 status
- SIGNET
- CLOD attendance to Congress
- CLOD presentation to Clinical Board regarding donation
- Regular and frequent teaching across the Health Board, including Nurse Induction, Ty Olwen Hospice and NICU
- Patient Storyboards in main corridor in Morriston Hospital
- ODC membership review and new members welcomed
- Established Communications Team contact and two articles published for intranet/social media
- Promotional film planned for Organ Donation Week

Storyboards (below)

## Challenges

- High levels of activity in region
- Impact of Workforce Transformation on embedded time
- SNOD training and relocation
- Prospect of Burns ITU merging with General ITU
- Introduction of Medical Examiners
