

CTAG-Lung Advisory Group ODT Clinical Governance Report July 2023

1. Status – Confidential

2. Action Requested

CTAG-L are requested to note this report.

3. Data

4. Learning from reports

There have been no relevant cases to report for discussion or oversight since the last CTAG-L meeting.

5. Trends

NHSBT were notified by Bridge to Life (supplier of UW® Cold Storage Perfusion Solution) that several NORS teams had identified discolouration of perfusion solution and/or leaking within the solution bag overwrap.

The issue is under investigation and NHSBT Quality Team have linked with relevant regulators. All NORS teams have been advised to switch to HTK as an alternative perfusion fluid. The perfusion protocol has been updated, circulated and is available on the ODT website.

Jane Rowlands
ODT Clinical Governance Manager
