

**Cambridge University Hospitals NHS Foundation Trust**

**Taking Organ Transplantation to 2020**

In 2020/21, from 41 consented donors the Trust facilitated 32 actual solid organ donors resulting in 71 patients receiving a life-saving or life-changing transplant. Data obtained from the UK Transplant Registry.

In addition to the 32 proceeding donors there were 9 consented donors that did not proceed.

**Best quality of care in organ donation**

We acknowledge that the data presented in this section includes the period most significantly impacted by COVID-19 and appreciate that the COVID-19 pandemic affected Trusts/Boards differently across the UK.

**Referral of potential deceased organ donors**

**Goal: Every patient who meets the referral criteria should be identified and referred to NHS Blood and Transplant's Organ Donation Service**

**Aim: There should be no purple on the chart**

**Aim: The Trust (marked with a cross) should fall within Bronze, Silver, or Gold**

The Trust referred 173 potential organ donors during 2020/21. There were 25 occasions where potential organ donors were not referred.

## Presence of Specialist Nurse for Organ Donation

**Goal: A Specialist Nurse for Organ Donation (SNOD) should be present during every organ donation discussion with families**

**Aim: There should be no purple on the chart**

**Aim: The Trust (marked with a cross) should fall within Bronze, Silver, or Gold**

A SNOD was present for 48 organ donation discussions with families during 2020/21. There were 8 occasions where a SNOD was not present.

### Why it matters

- If suitable patients are not referred, the patient's decision to be an organ donor is not honoured or the family does not get the chance to support organ donation.
- The consent rate in the UK is much higher when a SNOD is present.
- The number of patients receiving a life-saving or life-changing solid organ transplant in the UK is increasing but patients are still dying while waiting.

#### Regional donors, transplants, waiting list, and NHS Organ Donor Register (ODR) data

	East Of England*	UK
<b>1 April 2020 - 31 March 2021</b>		
Deceased donors	110	1,180
Transplants from deceased donors	333	2,943
Deaths on the transplant list	27	497
<b>As at 31 March 2021</b>		
Active transplant list	236	4,256
Number of NHS ODR opt-in registrations (% registered)**	2,548,771 (42%)	26,746,406 (41%)

\*Regions have been defined as per former Strategic Health Authorities

\*\* % registered based on population of 6.08 million, based on ONS 2011 census data

## Further information

Further information on potential donors after brain death (DBD) and potential donors after circulatory death (DCD) at the Trust are shown below, including a UK comparison. Data obtained from the Potential Donor Audit (PDA).

	DBD		DCD		Deceased donors	
	Trust	UK	Trust	UK	Trust	UK
Patients meeting organ donation referral criteria <sup>1</sup>	21	1810	181	6027	198	7551
Referred to Organ Donation Service	20	1777	156	4770	173	6282
<i>Referral rate %</i>	<b>B</b> 95%	98%	<b>S</b> 86%	79%	<b>B</b> 87%	83%
Neurological death tested	17	1490				
<i>Testing rate %</i>	<b>B</b> 81%	82%				
Eligible donors <sup>2</sup>	16	1353	90	2860	106	4207
Family approached	15	1210	41	1042	56	2248
Family approached and SNOD present	15	1168	33	925	48	2089
<i>% of approaches where SNOD present</i>	<b>G</b> 100%	97%	<b>B</b> 80%	89%	<b>B</b> 86%	93%
Consent ascertained	12	891	29	665	41	1553
<i>Consent rate %</i>	<b>B</b> 80%	74%	<b>B</b> 71%	64%	<b>B</b> 73%	69%
Actual donors (PDA data)	11	777	21	404	32	1180
<i>% of consented donors that became actual donors</i>	92%	87%	72%	61%	78%	76%

<sup>1</sup> DBD - A patient with suspected neurological death  
DCD - A patient in whom imminent death is anticipated, ie a patient receiving assisted ventilation, a clinical decision to withdraw treatment has been made and death is anticipated within 4 hours

<sup>2</sup> DBD - Death confirmed by neurological tests and no absolute contraindications to solid organ donation  
DCD - Imminent death anticipated and treatment withdrawn with no absolute contraindications to solid organ donation

Note that a patient that meets both the referral criteria for DBD and DCD organ donation is featured in both the DBD and DCD data but will only be counted once in the deceased donors total

**Gold** **Silver** **Bronze** **Amber** **Red**
