

NHS BLOOD AND TRANSPLANT

CARDIOTHORACIC ADVISORY GROUP

PROLONGED LUNG REGISTRATIONS

- 1 Prolonged lung registrations are defined as active registrations for greater than three years for lung or heart/lung patients. Prolonged suspensions on the cardiothoracic transplant list are defined as greater than three months.
- 2 Monthly listings have been sent to units since 1 March 2000 for prolonged suspensions and quarterly prolonged activation listings since February 2003. Units are requested to review the listed patients and notify NHS Blood and Transplant of any data amendments eg deaths, removals.
- 3 **Table 1** presents the number of prolonged lung registrations and suspensions by centre at 2 January 2014 and 3 March 2014, respectively. There were 18 patients who had been registered for a prolonged period with no prolonged suspensions.

Prolonged registrations on the UK lung and heart/lung transplant list		
Active lung only and heart/lung transplant list as at 1 January 2013 (registrations exceeding 3 years)
