

## University Hospitals Coventry and Warwickshire NHS Trust

### Taking Organ Transplantation to 2020

In 2021/22, from 34 consented donors the Trust facilitated 29 actual solid organ donors resulting in 76 patients receiving a life-saving or life-changing transplant. Data obtained from the UK Transplant Registry.

In addition to the 29 proceeding donors there were 5 consented donors that did not proceed.

### Best quality of care in organ donation

We acknowledge that the data presented in this section includes the period most significantly impacted by COVID-19 and appreciate that the COVID-19 pandemic affected Trusts/Boards differently across the UK.

#### Referral of potential deceased organ donors

**Goal: Every patient who meets the referral criteria should be identified and referred to NHS Blood and Transplant's Organ Donation Service**

**Aim: There should be no purple on the chart**

**Aim: The Trust (marked with a cross) should fall within Bronze, Silver, or Gold**

■ Patients not referred ■ Patients referred

The Trust referred 56 potential organ donors during 2021/22. There was 1 occasion where a potential organ donor was not referred.

## Presence of Specialist Nurse for Organ Donation

**Goal: A Specialist Nurse for Organ Donation (SNOD) should be present during every organ donation discussion with families**

**Aim: There should be no purple on the chart**

**Aim: The Trust (marked with a cross) should fall within Bronze, Silver, or Gold**

A SNOD was present for 35 organ donation discussions with families during 2021/22. There were 4 occasions where a SNOD was not present.

### Why it matters

- If suitable patients are not referred, the patient's decision to be an organ donor is not honoured or the family does not get the chance to support organ donation.
- The consent rate in the UK is much higher when a SNOD is present.
- The number of patients receiving a life-saving or life-changing solid organ transplant in the UK is increasing but patients are still dying while waiting.

#### Regional donors, transplants, waiting list, and NHS Organ Donor Register (ODR) data

	West Midlands*	UK
<b>1 April 2021 - 31 March 2022</b>		
Deceased donors	115	1,397
Transplants from deceased donors	312	3,410
Deaths on the transplant list	38	422
<b>As at 31 March 2022</b>		
Active transplant list	682	6,269
Number of NHS ODR opt-in registrations (% registered)**	2,014,159 (35%)	27,751,289 (43%)

\*Regions have been defined as per former Strategic Health Authorities

\*\* % registered based on population of 5.75 million, based on ONS 2011 census data

## Further information

Further information on potential donors after brain death (DBD) and potential donors after circulatory death (DCD) at the Trust are shown below, including a UK comparison. Data obtained from the Potential Donor Audit (PDA).

Key numbers, rates and comparison with UK data, 1 April 2021 - 31 March 2022						
	DBD		DCD		Deceased donors	
	Trust	UK	Trust	UK	Trust	UK
Patients meeting organ donation referral criteria <sup>1</sup>	27	1919	34	5198	57	6767
Referred to Organ Donation Service	26	1894	34	4700	56	6258
Referral rate %	<b>B</b> 96%	99%	<b>G</b> 100%	90%	<b>S</b> 98%	92%
Neurological death tested	21	1530				
Testing rate %	<b>B</b> 78%	80%				
Eligible donors <sup>2</sup>	21	1373	28	2972	49	4345
Family approached	19	1239	20	1445	39	2684
Family approached and SNOD present	18	1188	17	1306	35	2494
% of approaches where SNOD present	<b>B</b> 95%	96%	<b>B</b> 85%	90%	<b>B</b> 90%	93%
Consent ascertained	16	861	16	902	32	1763

- Other*	0	78	1	83	1	161
- Other* %	0%	66%	50%	47%	33%	55%
Actual donors (PDA data)	15	787	14	602	29	1389
% of consented donors that became actual donors	94%	91%	88%	67%	91%	79%

<sup>1</sup> DBD - A patient with suspected neurological death  
DCD - A patient in whom imminent death is anticipated, ie a patient receiving assisted ventilation, a clinical decision to withdraw treatment has been made and death is anticipated within 4 hours

<sup>2</sup> DBD - Death confirmed by neurological tests and no absolute contraindications to solid organ donation  
DCD - Imminent death anticipated and treatment withdrawn with no absolute contraindications to solid organ donation

\* Includes patients where nation specific deemed criteria are not met and the patient has not expressed a donation decision in accordance with relevant legislation

Note that a patient that meets both the referral criteria for DBD and DCD organ donation is featured in both the DBD and DCD data but will only be counted once in the deceased donors total

**Gold** **Silver** **Bronze** **Amber** **Red**
