ORGAN DONATION & TRANSPLANTATION DIRECTORATE**

BOWEL ADVISORY GROUP

PATIENT CONSENT SCHEME AUDIT

INTRODUCTION

- 1 Members will be aware that the NHS Blood and Transplant (NHSBT) Patient Consent Scheme for obtaining explicit consent for use of personal data for purposes of registration, organ allocation and transplant follow-up has been in place since October 2005. Each month, transplant centres with outstanding consent are issued a report to help identify those patients where consent should be obtained.

INTESTINAL FAILURE PATIENT CONSENT RATES

- 2 Of the 161 patients across the United Kingdom that have been listed for an intestinal failure transplant, at some point in time since April 2008, 100% have their level of consent for the use of their personal data recorded on the UK Transplant Registry. The patient consent rates achieved by each centre are summarised in **Appendix I**.
- 3 NHSBT remains grateful for the efforts made by centres to ensure the continued success of this statutory scheme.

ACTION

- 4 All centres have consent rates of 100% so no specific action is required. ODT Information Services remain committed to supporting centres with these returns and should you require further assistance, please do not hesitate to contact odtdatasupportteam@nhsbt.nhs.uk. Centres are requested to ensure a robust process is in place to make certain that consent is obtained in every case prior to patient listing

Appendix I Registration centre patient consent rates for the use of information recorded on the UK Transplant Registry, April 2008 to January 2015			
Registration centre	Total Registrations	Outstanding consent	
	N	N	(%)
Birmingham	53	0	(100)
Cambridge	57	0	(100)
Kings	17	0	(100)
Oxford	34	0	(100)
TOTAL	161	0	(100)
