Dear Diane,

Transition of Accreditation to

Standard: ISO15189:2022
Project Number: 318195-01
Project Name: ISO 15189: 2022 Transition

Following our assessment, we are pleased to inform you that all improvement actions raised requiring evidence to be submitted to UKAS are now satisfactorily cleared and that your transition to the revised standard has been granted, your profile date and accreditation expiry date remain unchanged by this transition. Any outstanding invoices for clearance of improvement actions will follow.

We will shortly be sending you a link to your new E-Certificate of Accreditation that reflects the transition of accreditation to the revised standard. Your revised schedule of accreditation will shortly be published on our website www.ukas.com. Please contact a Customer Liaison Officer in the event of any difficulty in downloading the schedule.

Accreditation is subject to the continuing compliance with the Standard and requirements as shown on your certificate, and payment of any fees incurred. Accreditation will be renewed following successful completion of a re-assessment, including clearance of any improvement actions, within an agreed timescale.

Yours sincerely,

Sue Gascoigne-Barnett
Assessment Manager
