

Blood Stocks Management Scheme Hospital User Groups

The BSMS red blood cell and platelet usage categories have been updated to reflect current and historical component issues to hospitals. The revised user groups are in use from May 2025. BSMS participants are categorised into user groups for red cells, platelets, fresh frozen plasma (FFP) and cryoprecipitate (cryo) based upon their annual issues from the blood service. The categories consist of **Very High, High, Moderate, Low** and **Very Low**. Hospitals may move between categories as their numbers of component issues changes.

To provide effective hospital benchmarking and considering the variable and ever-changing service configuration of hospitals over the past 4 years, we have established a standardised approach based on methodology used in the previous review. We have considered both GROSS issues (what was issued to the hospital by the appropriate blood service) and NET issues (as for gross issues but also factoring in any component movements) over the past 5 years to establish our user groups; with increased weighting applied to the most recent 12 months.

Red Cell BSMS User Group Criteria

Component Type: Red Blood Cells		
BSMS user category	N°. Of Hospitals	Group Criteria (n°. RBC units issued annually)
Very High	33	> 10,000
High	45	> 6,000 & ≤ 10,000
Moderate	91	> 3,000 & ≤ 6,000
Low	46	> 500 & ≤ 3,000
Very Low	25	≤ 500

Platelet BSMS User Group Criteria

Component Type: Platelets		
BSMS user category	N°. Of Hospitals	Group Criteria (n°. PLT units issued annually)
Very High	34	> 1,700
High	48	> 900 & ≤ 1,700
Moderate	83	> 315 & ≤ 900
Low	45	> 50 & ≤ 315
Very Low	30	≤ 50

FFP BSMS User Group Criteria

Component Type: Fresh Frozen Plasma (FFP)		
BSMS user category	N°. Of Hospitals	Group Criteria (n°. FFP units issued annually)
Very High	34	> 1,500
High	52	> 500 & ≤ 1,500
Moderate	83	> 150 & ≤ 500
Low	34	> 20 & ≤ 150
Very Low	20	≤ 20

Cryo BSMS User Group Criteria

Component Type: Pooled Cryoprecipitate (CRYO)		
BSMS user category	N°. Of Hospitals	Group Criteria (n°. CRYO units issued annually)
Very High	33	> 315
High	39	> 100 & ≤ 315
Moderate	82	> 30 & ≤ 100
Low	43	> 10 & ≤ 30
Very Low	43	≤ 10

The updated user groups are in use from **May 2025**.

If you have any questions, please do not hesitate to email us at bsms@nhsbt.nhs.uk.
