

Sustainability and Certainty in Organ Retrieval (SCORE)

Advisory Group Meetings – Spring 26

SCORE – Planned Arrival Window roadmap

Centre readiness

Knowledge gaps

- Questionnaire asked general questions re: readiness
- Many responses focussed on singular issues
- Some centres did not respond to the survey
- Some centres submitted multiple (and conflicting) responses

Action required:

- Updated survey with more focused questions on specific areas for assurance.

Assurance needed

More specific information is required in 5 key areas for NHSBT (ODT Hub) to be assured that the Planned Arrival Window can be introduced safely, **without causing disruption or disadvantaging recipients.**

Assurance	Green	Yellow	Orange	Red
Offering window readiness				
Out of offering window readiness				
Organ receipt				
Availability of Day-time theatre or Availability of perfusion technology				
Transport alignment				

Cardio-thoracic transplant centre;
Readiness (Self) Assessment for
SCORE (Q1 2026)
